Do you know where you're going?

Big picture goals!

This is Not "School at Home" -

There is NO perfect recipe -

Comparison is the death of contentment.

Don't let fear overwhelm you. You are NOT disqualified from teaching by the limitations of your current knowledge.

Less is more!!!!

Start slow -

Know your children -

Practical application:

- Break the stake -
- This is YOUR school -
- Command your curriculum -
- If it's not working . . . stop -

Ideas:

- Don't do every subject every day - Block scheduling
- Don't always start at the beginning - test out
- Use unit studies
- Give credit for non-curriculum learning
- Use car time to listen to school
- Get a clear tablecloth
- Make your own weekly or monthly chart for them to check off.
